Director Larry Mosley

Welcome to the website for the Department of Employment, Training & Rehabilitation. I'm pleased to offer you an overview of DETR's divisions, and their many programs. DETR was formed to help the citizens of Nevada achieve their career goals, and to help strengthen Nevada's economic health by supporting businesses and their employment needs.

Click to file on-line

The Department of Employment, Training & Rehabilitation consists of divisions that offer assistance in job training and placement, vocational rehabilitation, workplace discrimination and in collecting and analyzing workforce and economic data. Many of these services are provided through DETR's partnership with the Nevada JobConnect system. DETR's divisions include:

Employment Security Division
Rehabilitation Division
Nevada Equal Rights Commission
Research and Analysis Bureau
Information Development and Processing

Nevada Economy In Brief

Nevada Economy In Brief
Each year at this time industrial employment estimates for the previous two years are revised (benchmarked) using methods established by the U.S. Department of Labor's Bureau of Labor Statistics. The original estimates are derived from a monthly survey of approximately 2,500 Nevada employers. The modified figures are based on actual employment data collected each quarter from more than 60,000 Nevada employers covered by unemployment insurance laws.

Quarterly Census of Employment and Wages (QCEW)

In the Quarterly Census of Employment and Wages (QCEW) program, the Research and Analysis Bureau collects and compiles employment and wage data for workers covered by Nevada unemployment insurance laws, and federal civilian workers covered by Unemployment Compensation for Federal Employees.

The QCEW staff arranges the data by type of industry according to the North American Industry Classification System (NAICS). They assign each employing unit a NAICS code and location code. After screening the quarterly data, they transmit it to the Bureau of Labor Statistics (BLS). BLS combines all of the states' data for analysis of national economic trends and performance.

QCEW data are used by the Bureau of Economic Analysis of the U.S. Department of Commerce as a base for estimating a major portion of the total wage and salary component for national personal income and Gross Domestic Product. State agencies use the QCEW data to benchmark the Current Employment Statistics estimates. The QCEW program uses the UI administrative files of employers' quarterly reports to develop a complete list of employment by geographic location, which is important at both state and national levels for sampling firms, for research studies, and for the development of LMI programs at substate levels.
